

LAVOR PRO

works for you

Windy

WET & DRY VACUUM CLEANER

Filter cleaning system: when you block the fitting for the air inlet or the hose and move the slide, the surrounding air enters into the container, passing through the filter in the opposite direction. The dirt is blasted off the filter and the suction performance is top again. A comfortable and powerful yet gentle way of cleaning the filter without stop to work and without opening the machine.

Specially designed to meet specific requirements in industrial field, WINDY professional line of vacuum cleaners presents a wide range of high-tech and functional solutions.

Suction power, filtering system, filter cleaning system and silent running are the essential features, which have made these products appreciated by professional users.

STANDARD EQUIPMENT

WET/DRY VACUUM CLEANER

| | |
|-------------------|------------------|
| Code | 8.238.0001 |
| motor W | 1000 (max 1200) |
| column depression | 220 mbar/22 kPa |
| suction air | 65 l/s |
| tank capacity | 65 l. |
| voltage | 220-240~50/60 Hz |

Windy 165 IF

- 1 high efficiency by pass motor.
- Suction system with by-pass cooling.
- Filter cleaning system.
- S/S tank.
- Handy accessory holder.
- Traceless wheels.
- Accessories Ø 40.
- Cloth filter.

Windy 265 IF

- 2 high efficiency by pass motors.
- Suction system with by-pass cooling.
- Filter cleaning system.
- S/S tank. • Cloth filter.
- Handy accessory holder.
- Traceless wheels.
- Accessories Ø 40.

WET/DRY VACUUM CLEANER

| | |
|-------------------|------------------|
| Code | 8.239.0001 |
| motor W | 2000 (max 2400) |
| column depression | 220 mbar/22 kPa |
| suction air | 130 l/s |
| tank capacity | 65 l. |
| voltage | 220-240~50/60 Hz |
