

## Cold water high pressure cleaner – OCEAN 1510 LP

4 poles electrical motor (1450 rpm) with thermal protection, three ceramic coated **linear pistons brass pump head** (double water seal) with built-in by-pass (seat interchangeable) valve. Automatic Stop System. Suction and delivery S/S valves. Direct detergent suction with built-in tank. Power cable 5m. Pressure regulator. Glycerine pressure gauge.

Standard equipment: high pressure gun with quick swivel coupling, high pressure lance with fan jet, high pressure hose 8m

Optional: hose reel cod. 6.608.0021

Technical data:	OCEAN 1510 LP
Code	8.659.0016
Operat. Pressure bar	max 160 bar
Delivery rate	max 540 l/h
Absorbed power Kw	3000 W
RPM	1450 RPM
Voltage	230V-50Hz
Dimension	75x40x62
Weight	45 Kg
N° pcs. Pallet	9
